

Anderson Center Consulting Autism Supportive EnvironmentSM

Are you interested in supporting the Village of Rhinebeck in establishing themselves as an Autism Supportive Community?

By joining our Autism Supportive Community Team in our collaborative effort to establish the Village of Rhinebeck as an Autism Supportive Community, you will be recognized as a bridge of acceptance and support and a true community partner.

Anderson Center for Autism established the Autism Supportive EnvironmentSM program as a community partnership designed to assist businesses and organizations in understanding, serving, and supporting individuals with autism spectrum disorders (ASD) and their families. Many families of individuals with autism find themselves isolated from their communities and unable to participate in activities we take for granted such as dining out, running errands, enjoying community events or recreation activities.

Through the Informational Meeting, we hope to:

- ⇒ Meet village officials, business leaders, parents, and communities members who share an interest in the Village of Rhinebeck Autism Supportive Community effort
- ⇒ Hear and discuss the needs of families impacted by autism and other special needs
- ⇒ Learn more about what each of us can do to be more inclusive
- ⇒ Form an Autism Supportive Community Team to launch the campaign to establish the Village of Rhinebeck as the first Autism Supportive Community in the region

The Village of Rhinebeck is hosting an Informational Meeting for all community members interested in supporting this collaborative effort between Anderson Center for Autism, the Village of Rhinebeck, and the Thomas Thompson Trust.

Please join us to learn more.

Informational Meeting to be held:
Tuesday, October 30, 2018
2:30pm to 4:00pm
Village of Rhinebeck-Village Hall
76 East market Street
Rhinebeck, NY 12572
